

MIDDLE CLASS GROWTH
INITIATIVE

October 10, 2017

The Honorable John Katko
1620 Longworth House Office Building
Washington, DC 20515

Dear Congressman Katko,

We write in support of meaningful, transformational tax reform legislation that will strengthen economic growth and enable greater prosperity for American workers, families, and job creators.

Recent polling [shows](#) Americans overwhelmingly support passing comprehensive tax reform, with 73% of Americans saying it should be an important priority for Congress. Additionally, Americans consider lowering middle-class tax rates as the most important reform. With a loud and clear mandate, now is the time to act.

Congress has a historic opportunity to give Americans the simpler, fairer tax code they deserve and for too long have been denied. We commend the unified framework put forth by the White House and congressional leaders, including Speaker Ryan, Leader McConnell, Chairman Brady, and Chairman Hatch. It's past time to give tax relief to American middle-class wage earners and allow job creators to compete. We support this framework because it:

- **Levels the playing field**, allowing American job creators to keep up with foreign competition
- **Incentivizes local investment**, creating new, good-paying jobs
- **Raises wages**, allowing workers to keep more of their hard-earned paychecks

As Congress moves forward with these principles in hand, know that the conservative movement, and millions of Americans across the country, support your prioritization of pro-growth tax reform.

Sincerely,
